DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed. Applicant amended claim 1 to further clarify the invention from prior art. Specifically, the locations of both the adhesive layer and the anti-reflective coating with respect to the light pipe and substrate are incontrovertibly stated. This is critical to the novelty of the invention because relevant prior art places the antireflective coating between the fiber(s) and the substrate, whereas the present invention places the anti-reflective coating on the opposite side of the substrate from the fiber to improve coupling light into the fiber via the substrate. It is this examiner's position that prior art taken alone or in combination does not render obvious such a structure, in combination with the rest of the limitations of the claim.

Claims 2-35 are allowed as dependent claims of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
